Risk Warning 5

1. Introduction and Definitions

1.1 The Black Friday Trading Discount (the "Promotion") is offered by Vittaverse Ltd (the "Company"), registered in St. Vincent and the Grenadines.

1.2 These Terms are Promotion Specific Terms under the Company's Bonus & Promotions Policy (VT-BONUS-001) and form part of the Company's Client Agreement. By trading during the Promotion Period, the client accepts these Terms.

1.3 In these Terms:

(a) **Cashback** means a cash amount credited to a Standard Account for each lot traded on a Qualifying Trade.

(b) **Commission Discount** means a percentage reduction of the round turn commission charged on a Qualifying Trade on an ECN Account.

(c) **Lot** means one standard lot, being the contract size set out in the Company's contract specifications for the relevant instrument.

(d) **Qualifying Trade** means a trade that meets all the conditions in Section 6.

(e) **Eligible Account** means a verified live MT5 Standard Account or MT5 ECN Account in the client's own name.

2. Promotion Period

2.1 The Promotion runs from **00:00 on Monday 23 November 2026 to 23:59 on Friday 27 November 2026**, platform time (the "Promotion Period").

2.2 Only trades opened and closed within the Promotion Period are considered.

3. Eligibility

3.1 The Promotion is open to clients who:

(a) hold at least one Eligible Account; and

(b) are registered with a country of residence of Iran, Afghanistan or Turkey.

3.2 Both new and existing clients may take part. Clients introduced by an Introducing Broker or affiliate are eligible.

3.3 Demo, Prop, Copy and Credit accounts are not eligible.

3.4 The Company may verify a client's country of residence at any time and may exclude any account that does not meet these conditions.

4. Rewards

4.1 Clients receive up to 50% off their trading costs on eligible instruments, as set out below:

Instrument group	MT5 Standard: Cashback	MT5 ECN: Commission Discount
Forex (Majors and Minors)	4 USD per lot	50%
Gold	4 USD per lot	40%
Spot Energies	4 USD per lot	30%

4.2 Rewards are calculated per Lot. Fractional lots earn a proportional reward. For example, a 0.50 lot Qualifying Trade on a Standard Account earns a Cashback of 2 USD.

4.3 For accounts denominated in a currency other than USD, the Cashback is converted at the Company's prevailing rate on the day it is credited.

4.4 There is no maximum reward per client.

5. Eligible Instruments

5.1 The Promotion applies only to Forex Majors, Forex Minors, Gold and Spot Energies, as listed under those groups on the MT5 platform.

5.2 All other instruments, including Indices, Silver, Cryptocurrencies and Shares, are excluded.

6. Qualifying Trades

6.1 A trade is a Qualifying Trade only if:

(a) it is opened and closed within the Promotion Period;

(b) it is on an eligible instrument listed in Section 5;

(c) it is held open for at least 180 seconds (3 minutes); and

(d) the account balance is above zero when the reward is credited.

6.2 The following trades do not qualify:

(a) trades held for less than 180 seconds;

(b) hedged or offsetting positions on the same or correlated instruments, on one account or across linked accounts;

(c) trades opened before or still open after the Promotion Period; and

(d) trades cancelled or adjusted by the Company under the Client Agreement.

7. Payment of Rewards

7.1 Cashback is credited automatically to the same Standard Account as withdrawable cash after each Qualifying Trade is closed.

7.2 The Commission Discount is applied directly to the commission charged on each Qualifying Trade on an ECN Account.

7.3 No Cashback is credited while the account balance is zero or below. Cashback not credited for this reason is forfeited.

7.4 There are no trading volume requirements to withdraw Cashback.

7.5 The Company may reverse any reward credited for a trade later found not to qualify.

8. Abuse and Remedies

8.1 The Company may withhold or reverse rewards, and exclude any client from the Promotion, where it reasonably suspects abuse, including:

(a) **Scalping and arbitrage:** latency, price feed or arbitrage strategies, or trading mainly to generate rewards;

(b) **Hedging:** opening opposite positions on one account, across linked accounts or with another broker to generate rewards without market risk;

(c) **Multiple accounts:** using multiple or linked accounts, or coordinating trades with other clients;

(d) **Automated exploitation:** using Expert Advisors, scripts or other tools designed to exploit the Promotion or the trading platform; or

(e) any other conduct the Company reasonably considers abusive, fraudulent or contrary to the spirit of the Promotion.

8.2 The Company's assessment of abuse is made in good faith on the basis of account activity and trading patterns, and is final.

9. General Terms

9.1 The Promotion cannot be combined with any other bonus, cashback or rebate promotion on the same account during the Promotion Period. Introducing Broker rebates are not affected.

9.2 The Company's decisions on all matters relating to the Promotion are final and binding.

9.3 The Company may amend, suspend or cancel the Promotion at any time, including for technical, regulatory or force majeure reasons. Any changes will be published on the Promotion page.

9.4 The Company is not liable for any loss arising from platform outages, connectivity problems or price feed interruptions outside its reasonable control.

9.5 Clients are solely responsible for any taxes or duties due in their country of residence.

9.6 Personal data is processed in accordance with the Company's Privacy Policy.

9.7 In case of conflict on any matter relating to the Promotion, these Terms prevail over the Bonus & Promotions Policy (VT-BONUS-001).

9.8 These Terms are governed by the laws of St. Vincent and the Grenadines.

9.9 If these Terms are translated, the English version prevails.

10. Contact

10.1 For any questions about the Promotion, please contact our Support team at support@vittaverse.com or through live chat in the Client Area.

Risk Warning

Trading Contracts for Difference (CFDs) on margin carries a high level of risk and may not be suitable for all investors. The high degree of leverage can work against you as well as for you, and you may lose all of your invested capital. A reduction in trading costs does not reduce the risk of loss. Before trading, please ensure you fully understand the risks involved and seek independent advice if necessary.
