VITTAVERSE

1. Organiser and Promotion Period

1.1 The "Credit Bonus" promotion (the "Promotion") is organised by Vittaverse Ltd, a company registered in St. Vincent and the Grenadines with its Registered Address at Euro House, Richmond Hill Road, Kingstown, St. Vincent and the Grenadines (the "Company", "we", "us").

1.2 The Promotion starts on 10/11/2026 and remains available until it is withdrawn by the Company under section 13 (the "Promotion Period").

1.3 Summary of the Promotion:

Feature	Rule
Bonus	One time Bonus of 100% of the first transfer from the Wallet into the Credit Account
Minimum transfer	200 USD. A first transfer below 200 USD receives no Bonus
Maximum Bonus	1,000 USD per Client
Further transfers	Only the first transfer counts. Later transfers do not receive any Bonus
Account	The Client must select the Standard Credit Account type to receive the Bonus
Other promotions	The Credit Account cannot be under any other promotion
How the Bonus works	Counts as Equity and margin, but cannot absorb losses (no drawdown)
Automatic stop out	When Equity reaches the Bonus amount, all positions are closed and the Bonus is removed
Conversion to cash	5 USD per Lot traded on Forex, Metals and Energies, released in steps of 50 USD (every 10 Lots: 10 Lots, 20 Lots, 30 Lots and so on), once a day after 12:00 Platform Time. Trades held under 2 minutes do not count
Revocation	Converted amounts are revoked if the Client withdraws before the Bonus is fully converted, or if the account is stopped out with no Equity left
Validity	90 calendar days from the Bonus Start Date; removed on the 91st day
Eligible Clients	Residents of Iran, Afghanistan and Turkey, new and existing Clients

1.4 These Terms are Promotion Specific Terms under the Company's Bonus & Promotions Policy (VT-BONUS-001) and form part of the Company's Client Services Agreement (VT-CA-001). By opening a Credit Account, accepting the Bonus or trading on it, the Client agrees to be bound by these Terms.

2. Definitions

2.1 **Bonus** or **Credit Bonus** means the credit granted under these Terms. The Bonus is not cash, is not client money and cannot be withdrawn, except through Conversion under section 9.

2.2 **Credit Account** means a new live trading account of the Standard Credit Account type, opened by the Client for this Promotion.

2.3 **Wallet** means the Client's wallet in the Company's Client Area.

2.4 **Qualifying Transfer** means the first transfer of funds from the Client's Wallet into the Credit Account, provided it is at least 200 USD. Transfers from another trading account are not Qualifying Transfers.

2.5 **Balance** means the Client's own funds in the Credit Account, including realised profits and losses, excluding the Bonus.

2.6 **Equity** means the Balance plus the Bonus plus the profit or loss of open positions.

2.7 **Own Funds** means Equity minus the Bonus, being the part of the Equity that belongs to the Client.

2.8 **Qualifying Instruments** means Forex, Metals and Energies, as classified in the Company's contract specifications.

2.9 **Lot** means one standard lot as set out in the Company's contract specifications. Trades smaller or larger than one Lot count in proportion to their volume.

2.10 **Conversion** means the release of part of the Bonus into the Balance under section 9, and **Converted Amount** means any amount released in this way.

2.11 **Bonus Start Date** means the date on which the Bonus is credited to the Credit Account.

2.12 **Platform Time** means the server time shown on the Company's trading platform.

3. Eligibility

3.1 The Promotion is open to new and existing Clients who:

a) are residents of Iran, Afghanistan or Turkey;

b) have completed identity verification (KYC) to the Company's satisfaction; and

c) open a new trading account and select the **Standard Credit Account** type.

3.2 Each Client may hold only one Credit Account. All accounts held by the same Client, and accounts the Company treats as related or linked, are counted together for all limits in these Terms.

3.3 Existing trading accounts of any type, including Standard, ECN, VIP, Islamic, PAMM or MAM accounts, cannot be converted into a Credit Account and are not eligible.

3.4 Clients introduced by Introducing Brokers (IBs) may be subject to separate eligibility rules at the Company's discretion. IB remuneration on trading in the Credit Account may be restricted.

3.5 The Company may refuse to open a Credit Account or to grant the Bonus to any Client at its sole discretion.

4. The Credit Account

4.1 To be awarded the Bonus, the Client must select the **Standard Credit Account** type when opening the account. An account opened as any other type does not receive the Bonus and cannot be changed into a Credit Account afterwards.

4.2 The Credit Account is dedicated to this Promotion. It can only receive the Credit Bonus.

4.3 The Credit Account cannot be under, registered for or take part in any other bonus, promotion, campaign, competition or offer of the Company, at any time. The Credit Bonus cannot be combined with any other offer. If the Credit Account is found to be under any other promotion, the Company may remove the Credit Bonus, any other bonus, and any Converted Amounts.

4.4 The Bonus cannot be transferred to any other account, and bonuses from other promotions cannot be credited to the Credit Account.

4.5 Trading in the Credit Account is subject to the trading conditions of the Standard account type, as published by the Company, and to the Client Services Agreement.

5. Bonus Amount and Limits

5.1 The Bonus is granted only once, on the first transfer from the Wallet into the Credit Account, and is equal to 100% of the amount of that transfer.

5.2 The minimum first transfer is **200 USD**. If the first transfer is less than 200 USD, no Bonus is granted. Because only the first transfer counts, no Bonus is granted on any later transfer either.

5.3 If the Client makes several transfers, only the first transfer counts. Any later transfer into the Credit Account does not receive any Bonus, whatever its amount and whether or not the Bonus is still on the account.

5.4 **Clients should therefore transfer the full amount they wish to receive the Bonus on in one single transfer.**

5.5 The maximum Bonus is 1,000 USD per Client. If the first transfer is larger than 1,000 USD, the Bonus is credited only up to 1,000 USD.

5.6 Examples:

First transfer	Bonus credited	Later transfers
150 USD	0 USD (below 200 USD minimum)	No Bonus
300 USD	300 USD	No Bonus
1,000 USD	1,000 USD	No Bonus

First transfer	Bonus credited	Later transfers
2,500 USD	1,000 USD (maximum)	No Bonus

5.7 Example: a Client transfers 200 USD and the next day transfers a further 800 USD. The Bonus is 200 USD and the second transfer receives no Bonus. Had the Client transferred 1,000 USD in one single transfer, the Bonus would have been 1,000 USD.

6. Bonus Crediting

6.1 The Bonus is calculated and credited to the Credit Account after the Qualifying Transfer is approved on the Company's systems.

6.2 The date and time of a transfer is the time it is approved on the Company's systems, in Platform Time. Where several transfers are made, the first transfer is the one approved first.

6.3 The Bonus is not a liability of the Company towards the Client. The Company is not liable for any delay or failure in crediting the Bonus for technical, operational or compliance reasons. The Client must not trade on the expectation of a Bonus that has not yet been credited.

7. How the Bonus Works: Equity, Not Drawdown

7.1 The Bonus is added to the Equity of the Credit Account and increases the margin available to open and hold positions.

7.2 The Bonus cannot be used to absorb trading losses. Only the Client's Own Funds absorb losses. The Bonus is never available as drawdown.

7.3 The Client acknowledges and accepts that the Bonus is available only as Equity for margin purposes and not for drawdown, and that the account will be stopped out when its Own Funds are used up, as set out in section 8.

7.4 Profits made on the Credit Account belong to the Client and form part of the Balance, subject to sections 8 and 10.

8. Automatic Stop Out and Bonus Removal

8.1 The Company monitors all Credit Accounts automatically and continuously.

8.2 If the Equity of the Credit Account falls to or below the amount of the Bonus, meaning the Client's Own Funds have been used up, then automatically and without prior notice:

a) the full Bonus is removed from the account;

b) all open positions are closed; and

c) all pending orders are cancelled.

8.3 Positions are closed at the next available market price. In fast markets, price gaps or low liquidity, the closing price may differ from the price at which the stop out was triggered, and the final Balance may therefore be higher or lower than zero.

8.4 If, as a result of the stop out, the account has no Equity left or has negative Equity, and any part of the Bonus had already been converted under section 9, the Conversion is annulled automatically by the system. All Converted Amounts are revoked and deducted from the Balance.

8.5 Any negative balance arising under this section is handled in accordance with the Client Services Agreement.

8.6 Bonus removed under this section cannot be reinstated, and no new Bonus is granted on later transfers.

8.7 The Company is not liable for any stop out, closed position, stop loss, loss of opportunity or other loss caused by the automatic removal of the Bonus or the revocation of Converted Amounts.

8.8 Example: a Client transfers 200 USD and receives a Bonus of 200 USD.

Floating profit or loss	Equity	Bonus	Own Funds	Result
0 USD (start)	400 USD	200 USD	200 USD	Trading normally
minus 80 USD	320 USD	200 USD	120 USD	Trading normally
minus 160 USD	240 USD	200 USD	40 USD	Trading normally, close to stop out
minus 200 USD	200 USD	200 USD	0 USD	Equity reaches the Bonus: Bonus removed, all positions closed
After stop out	0 USD	0 USD	0 USD	Account closed out; the Bonus was not used for losses

In this example the Bonus allowed the Client to open larger positions, but the Client's losses were limited to the Client's own 200 USD. The Bonus itself was never used to cover losses. If part of the Bonus had already been converted, that Converted Amount would also be revoked under section 8.4.

9. Converting the Bonus to Cash

9.1 For every 1 Lot traded on Qualifying Instruments on the Credit Account, 5 USD of the Bonus is accrued towards Conversion.

9.2 Only trades on Forex, Metals and Energies count towards Conversion. Trades on any other instrument, including Indices, shares, cryptocurrencies and any other asset class, do not count, although they remain subject to all other parts of these Terms.

9.3 **Trades held open for less than 2 minutes do not count towards Conversion.** Only trades held open for 2 minutes or more, from opening to closing of the position, are included in the Lot count.

9.4 The accrued amount is released into the Balance only in steps of 50 USD. This means one step for every 10 Lots traded: the first 50 USD is released after 10 Lots, the second 50 USD after 20 Lots in total, the third after 30 Lots in total, and so on. Accrued amounts below the next 50 USD step are carried forward and are not released until the step is reached.

9.5 Released amounts are paid into the Credit Account **once a day, after 12:00 Platform Time**, for all 50 USD steps reached since the previous payment. Conversion is not paid in real time and cannot be requested earlier. Clients must wait for the daily payment to be credited.

9.6 Each Converted Amount is moved from the Bonus to the Balance. Until the full Bonus has been converted, Converted Amounts remain subject to revocation under sections 8.4 and 10.2.

9.7 Only closed trades count. A Lot is counted once per completed trade (opening and closing of the position).

9.8 The total converted amount cannot exceed the Bonus remaining in the account. A maximum Bonus of 1,000 USD is fully converted after 200 Lots.

9.9 Trades closed after the Bonus has been removed or has expired do not count towards Conversion.

9.10 Example for a Bonus of 1,000 USD (all trades on Qualifying Instruments and held for 2 minutes or more):

Lots traded	Accrued (5 USD per Lot)	Released to Balance	Bonus remaining
5	25 USD	0 USD	1,000 USD
10	50 USD	50 USD (1st step)	950 USD
15	75 USD	50 USD	950 USD
20	100 USD	100 USD (2nd step)	900 USD
30	150 USD	150 USD (3rd step)	850 USD
100	500 USD	500 USD	500 USD
200	1,000 USD	1,000 USD	0 USD (fully converted)

10. Withdrawals and Transfers

10.1 The Bonus cannot be withdrawn, except through Conversion under section 9.

10.2 If the Client withdraws or transfers out any amount from the Credit Account before the Bonus has been fully converted, then automatically and regardless of the amount withdrawn:

a) the full remaining Bonus is removed;

b) no further Conversion takes place; and
c) all Converted Amounts already paid into the Balance are revoked automatically by the system and deducted from the Balance.

10.3 The revocation is applied before the withdrawal is processed. The Client can withdraw only the Balance remaining after the Converted Amounts have been deducted.

10.4 Once the full Bonus has been converted, or the Bonus has expired under section 11, Converted Amounts are the Client's own funds and are no longer subject to revocation under section 10.2.

10.5 Removed Bonus and revoked Converted Amounts cannot be reinstated, and no new Bonus is granted on later transfers.

10.6 The Company is not liable for any impact of the removal or revocation, including margin shortfall, stop out of open positions or account closure.

10.7 Example: a Client transfers 500 USD and receives a Bonus of 500 USD. After trading 25 Lots, 125 USD has been accrued and 100 USD released into the Balance (two 50 USD steps), and 400 USD of Bonus remains. If the Client now withdraws 100 USD, the remaining 400 USD of Bonus is removed and the 100 USD already converted is revoked and deducted from the Balance. No further Conversion takes place.

11. Bonus Validity and Expiry

11.1 The Bonus is valid for 90 calendar days from the Bonus Start Date (the "Validity Period").

11.2 On the 91st day, at 00:00 Platform Time, any Bonus that has not been converted is removed automatically and without prior notice.

11.3 Converted Amounts already paid into the Balance are not affected by the expiry.

11.4 It is the Client's responsibility to monitor the expiry date and manage open positions and margin. The Company accepts no liability for margin calls, stop outs or position closures resulting from the removal of the Bonus at expiry.

12. Prohibited Conduct and Abuse

12.1 The Bonus may only be used in good faith for normal trading activity. The following is considered abuse:
a) **Hedging:** opening opposite positions across accounts held with the Company or with other brokers to extract Bonus value without genuine market exposure;
b) **Coordinated trading:** acting with other Clients, third parties or Introducing Brokers to structure positions that exploit the Bonus without real economic risk;
c) **Multiple accounts:** using several accounts or identities, directly or through associated persons, to claim more than one Bonus or exceed the limits;

d) **Volume generation:** opening and closing positions only to accumulate Lots for Conversion, including very short trades or trades without genuine market exposure;
e) **Stop out exploitation:** taking positions sized to exploit the automatic stop out, price gaps or negative balance treatment rather than for genuine trading;
f) **Arbitrage:** exploiting price delays, latency, feed errors or other pricing irregularities;
g) **Automated exploitation:** using Expert Advisors or other tools designed to exploit the Bonus or the trading platform;
h) **Fraud:** providing false or misleading information or documents; and
i) any other conduct the Company reasonably considers manipulative, abusive or contrary to the spirit of the Promotion.

12.2 If the Company has reasonable grounds to suspect abuse, it may, at its sole discretion and without prior notice:
a) cancel all or part of the Bonus and any profits generated with it;
b) exclude trades from the Lot count for Conversion and revoke Converted Amounts;
c) offset profits from winning accounts against losses in related or hedged accounts;
d) cancel transactions linked to the abuse;
e) recover any Bonus, commissions or benefits received by the Client or any associated Introducing Broker; and
f) restrict, suspend or close the Client's accounts and terminate the Client Services Agreement.

12.3 The Company's assessment of abuse is made in good faith on the basis of account activity and trading patterns, and is final.

13. General Terms

13.1 The Bonus is offered at the Company's sole discretion. The Company's decisions on all matters relating to the Promotion are final and binding.

13.2 The Company may amend, suspend or terminate the Promotion at any time at its own discretion, including for technical, regulatory or force majeure reasons. Any changes will be published on the Promotion page. Bonus already credited remains subject to these Terms unless the Company decides otherwise.

13.3 The Company is not liable for any stop loss, stop out, closed position or other loss caused by the removal of the Bonus or the revocation of Converted Amounts for any reason permitted under these Terms, or for platform outages, connectivity problems or payment delays outside its reasonable control.

13.4 Clients may opt out of the Promotion by writing to support@vittaverse.com. On opt out, any remaining Bonus is removed immediately and no further Bonus is credited.

13.5 By opening a Credit Account, the Client confirms that they have read and understood these Terms, in particular sections 5, 7, 8, 9 and 10.

13.6 Clients are solely responsible for any taxes or duties due in their country of residence.

13.7 Personal data is processed in accordance with the Company's Privacy Policy.

13.8 In case of conflict on any matter relating to the Promotion, these Terms prevail over the Bonus & Promotions Policy (VT-BONUS-001).

13.9 These Terms are governed by the laws of St. Vincent and the Grenadines.

13.10 If these Terms are translated, the English version prevails.

14. Contact

14.1 For any questions about the Promotion, please contact our Support team at support@vittaverse.com or through live chat in the Client Area.

Risk Warning

Trading Contracts for Difference (CFDs) on margin carries a high level of risk and may not be suitable for all investors. The high degree of leverage can work against you as well as for you, and you may lose all of your invested capital. The Credit Bonus increases the margin available for trading and therefore the size of positions you can open, but it does not absorb losses: you can lose all of your own funds. Before trading, please ensure you fully understand the risks involved and seek independent advice if necessary.
